## OTHER CATEGORIES

### Inline Fan

Utilizing a mixed flow design combined with an EC motor to ensure true energy efficiency with a very low noise level. Lightweight ABS blades reduce the airflow resistance and increase airflow by 40%. The smart controller has multiple modes for operation, 10 speeds, is easy to program and can control the humidity and temperature automatically.

### Metal Plant Stand

The Spider Farmer Metal Plant Stand is made of high quality iron with a moisture resistant powder coat finish. It can support up to 55 pounds per tier and is rust-resistant and durable. Paired with three spill-proof plant trays, it can prevent spills. The simple structure mainly consists of a shelf, support rod, waterproof tray and casters.

### Humidifier

Spider Farmer's Humidifier adjusts mist volume and humidity (40%-90%) with 1-3 levels, has a built-in hygrometer, and lasts up to 30 hours with a 4L tank. Its 360°, 300 ml/h mist output covers large spaces and grow tents, and it can be controlled with a button or remote. It also has a sleep mode that runs with the screen closed.

### Heat Mat

The Spider Farmer heating mat utilizes its advanced design to quickly heat the root area by 50-77°F (10-25°C) above the ambient air temp within 2 minutes. Compared with the traditional heating wire, the innovative far-infrared film heating speed is faster, the energy consumption is lower, the soft heat distribution is more uniform, and does not consume the moisture in the air, which is more conducive to the germination and rooting of indoor gardening.

### Grow Bags

Spider Farmer's durable, high-quality non-woven fabric grow bags offer excellent aeration, preventing root rotation and promoting root health. Their sturdy handles ensure safe and easy movement.
