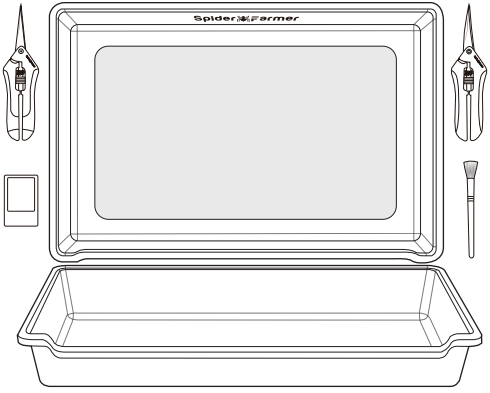
USER MANUAL

Trim Tray

Sift and Collect Every Precious Particle



SF-TrimTray-01

PRODUCT SPECIFICATIONS

Accessories	Dimension	Materials	Function
Trim Tray x 1		ABS shell and 304 stainless steel filter (150-micron mesh)	Suitable for collecting pollen, flour, tea, condiments, herbs, and more.
Sifter Tray x 1		ABS shell with bottom frosted texture	Lightweight and easy to use on your lap or tabletop for trimming and collecting.
Cleaning Brush x 1		Wooden handle, aluminum tube, fine light-peak wool	Double-layer cleaning brush with flat fan head cleans gently and efficiently.
Card Magnifier x 1		0.5 mm thick PVC material, 3× magnification	(1) Magnifying glass for inspecting flower buds and plant details. (2) Scoop tool for gathering collected pollen.
Straight Blade Pruning Shears x 1		Blade: Stainless steel 2Cr13 Handle: PP (orange) + PTR (black)	Corrosion-resistant stainless-steel blade stays sharp, clean, and rust-free.
Curved Blade Pruning Shears x 1		Blade: Stainless steel 2Cr13 Handle: PP (orange) + PTR (black)	Corrosion-resistant stainless-steel blade stays sharp, clean, and rust-free.

MAINTENANCE & CARE INSTRUCTIONS — EN

1. Clean After Each Use
After each use, remove any remaining material from the mesh surface and openings. For sticky residues, soak the parts in a neutral solvent to prevent corrosion and clogging.

2. Use Proper Cleaning Tools
Use a soft-bristle brush, a dedicated cleaning brush, or a low-pressure water spray. Avoid sharp tools or high-pressure air, as these can damage the mesh. For fine mesh, an ultrasonic cleaner is recommended to remove microparticles.

3. Dry Before Storage
Ensure the mesh is completely dry before storing. Keep the unit in a dry, well-ventilated area to prevent rust and moisture damage.

WARTUNG & PFLEGEHINWEISE — DE

1. Rückstände rechtzeitig entfernen
Nach jeder Benutzung sollten Rückstände von der Siebfläche und den Öffnungen entfernt werden. Bei klebrigen Stoffen wird empfohlen, das Sieb in einem neutralen Lösungsmittel einzuweichen, um Verstopfung und Korrosion zu vermeiden.

2. Geeignete Reinigungswerkzeuge verwenden
Verwenden Sie eine weiche Bürste, eine Spezialbürste oder eine Niederdruck-Wasserpistole. Scharfe Gegenstände oder Druckluft können die Siebstruktur beschädigen. Für Feinsiebe empfiehlt sich ein Ultraschallreiniger.

3. Trocken lagern
Nach der Reinigung vollständig trocknen lassen. Lagern Sie das Sieb an einem trockenen und gut belüfteten Ort, um Rostbildung zu vermeiden.

INSTRUCTIONS D'ENTRETIEN — FR

1. Nettoyage immédiat des résidus
Nettoyez le tamis après chaque utilisation pour éviter l'accumulation de résidus dans les mailles. Pour les matières collantes, utilisez un solvant neutre afin d'éviter l'obstruction et la corrosion.

2. Utiliser les bons outils
Privilégiez une brosse douce, une brosse dédiée ou un jet d'eau à basse pression. N'utilisez pas d'objets pointus ni d'air comprimé. Pour les tamis fins, un nettoyeur à ultrasons est recommandé.

3. Séchage et stockage
Bien sécher après nettoyage. Stocker dans un endroit sec et bien ventilé pour éviter l'humidité et la rouille.

INSTRUCCIONES DE MANTENIMIENTO — ES

1. Eliminar residuos a tiempo
Limpie la malla después de cada uso para evitar obstrucciones. Para residuos pegajosos, utilice un disolvente neutro para prevenir la corrosión.

2. Usar herramientas adecuadas
Utilice un cepillo de cerdas suaves, cepillo especial o agua a baja presión. Evite herramientas afiladas o aire comprimido. Para mallas finas, se recomienda limpieza ultrasónica.

3. Secar antes de almacenar
Asegúrese de que el tamiz esté completamente seco antes de guardarlo. Almacene en un lugar seco y ventilado para evitar óxido o humedad.

ISTRUZIONI PER LA MANUTENZIONE — IT

1. Rimuovere i residui in modo tempestivo
Dopo ogni utilizzo, pulire accuratamente la superficie del setaccio. Per i residui appiccicosi, immergere in un solvente neutro per evitare ostruzioni e corrosione.

2. Utilizzare strumenti adeguati
Usare una spazzola a setole morbide, una spazzola dedicata o un getto d'acqua a bassa pressione. Evitare strumenti appuntiti o aria compressa. Per i setacci fini è consigliato l'uso di un pulitore a ultrasuoni.

3. Asciugare prima di riporre
Asciugare completamente dopo la pulizia. Conservare in luogo asciutto e ben ventilato per evitare ruggine e umidità.

ONDERHOUDSINSTRUCTIES — NL

1. Verwijder restmateriaal direct
Reinig het zeefoppervlak en de openingen na elk gebruik. Plakkerige resten kunnen het beste worden verwijderd door te weken in een neutraal oplosmiddel om verstopping en corrosie te voorkomen.

2. Gebruik geschikte hulpmiddelen
Gebruik een zachte borstel, speciale reinigingsborstel of een lage druk waterstraal. Vermijd scherpe voorwerpen of perslucht. Voor fijne zeefgaas is een ultrasoon reinigingsapparaat aanbevolen.

3. Goed drogen voor opslag
Laat volledig drogen voor opslag. Bewaar op een droge, goed geventileerde plaats om roestvorming te voorkomen.

WARRANTY

Spider Farmer offers warranty support in the United States, Canada, the United Kingdom, the European Union, and Australia.

30-Day Return Policy

Returns or exchanges are accepted within 30 days of delivery, provided the product is in its original condition with all original packaging, accessories, and included gifts. For returns not related to quality issues, customers are responsible for return shipping costs.

1-Year Warranty

Free repair, replacement, and shipping are provided for any product with quality-related issues.

Important Notice:

Unauthorized repairs, modifications, or improper use will void the warranty.
